Length (min. - max.)	Width (min. - max.)	Height (min. - max.)
(9.0" - 24.0")	(7.5" - 20.0")	(6.0" - 16.0")

## MBF-T MANUAL TILTING BOTTOM FLAP FOLDER PACKING STATION

The BestPack™ MBF-T is a bottom flap folder and packing station has a tilting bed that closes the bottom flaps and holds the carton in a tilted position while the operator fills the carton. The operator then activates a switch that causes the packing station to rotate to a standing position and the operator then pushes the carton to the next station. The ergonomic design of the tilting bed provides a better packing angle for the product being packed in the carton by the operator. The MBF-T is a great addition to BestPack's flagship carton sealers and provides a total packing line solution.

VERSION 5.0\_0124

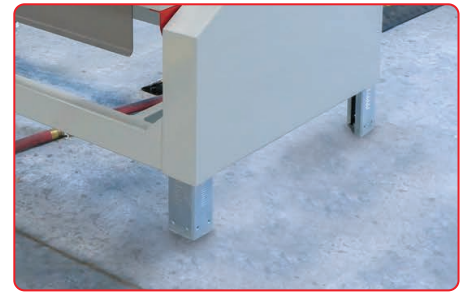

### TILTING PACKING STATION

The ergonomic design of the tilting bed provides a better packing angle for the product being packed.

### AIR MICRO SWITCH

Switch activates to close the bottom flaps and holds the carton in a tilted position.

### ADJUSTABLE BED HEIGHT 20.5" - 30"

Starts and resets upon activation, decreases energy consumption and risk of injury.

### LEFT OR RIGHT JUSTIFIED

The packing station is available in either a left or right justified option.

### STAINLESS STEEL FLAP FOLDING SECTION

Ensures durability and leaves no marks on cartons, providing a lasting solution.

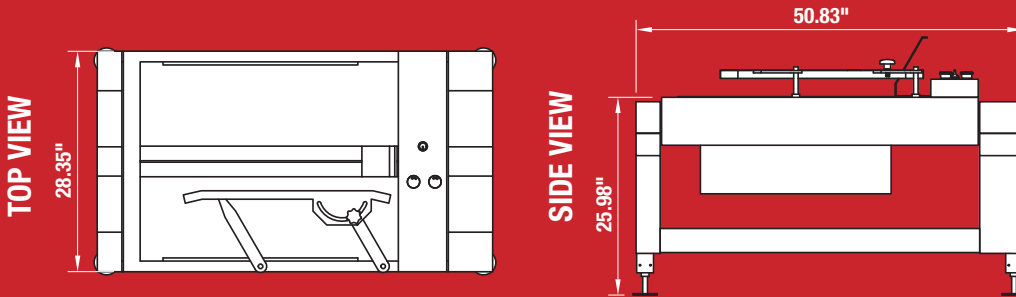

### MAINTENANCE FREE AIR CYLINDER

Uses Heavy Duty SMC oil-less cushioned air-cylinders.
