CARTON RANGE

Specifications based on MBF20

| Length (min. - max.) | Width (min. - max.) | Height (min. - max.) |
|-------------------------|------------------------|-------------------------|
| (7.5" - 24.0") | (7.5" - 20.0") | (U") |

MBF MANUAL BOTTOM FLAP FOLDER PACKING STATION

The BestPack™ MBF is a bottom flap folder and packing station that closes the bottom flaps and holds the carton in position while the operator fills the carton. The operator then pushes the carton to the next station. The MBF is a great addition to BestPack's flagship carton sealers and provides a total packing line solution. All BestPack units are available in our standard baked enamel finish and food grade 304 stainless steel for 21 CFR 110 compliance.

VERSION 5.0_0124

ADJUSTABLE RAIL WIDTH MECHANISM

Manually Adjust the rail to provide support for a wide range of cartons.

AIR MICRO SWITCH

Switch activates to close the bottom flaps and holds the carton in a tilted position.

ADJUSTABLE BED HEIGHT 20.5" - 30"

Starts and resets upon activation, decreases energy consumption and risk of injury.

LEFT OR RIGHT JUSTIFIED

The packing station is available in either a left or right justified option.

STAINLESS STEEL FLAP FOLDING SECTION

Ensures durability and leaves no marks on cartons, providing a lasting solution.

MAINTENANCE FREE AIR CYLINDER

Uses Heavy Duty SMC oil-less cushioned air-cylinders.

MACHINE FOOTPRINT
